

OFFICE OF INSTITUTIONAL EQUITY

Affirmative Action Executive Summary

2022

University of Connecticut

2021 AFFIRMATIVE ACTION PLAN

The University's Affirmative Action Plan for Employment (*Plan*), is a comprehensive, results oriented set of procedures and programs that articulate the University's strategy to combat discrimination, put forth a good faith effort to attain hiring goals, and achieve equal employment opportunity.

The Office of Institutional Equity completes the annual *Plan* as required by Connecticut General Statute (CGS) §46a-68 and sections 46a-68-75 to 46a-68-114, inclusive, for submission to the Commission on Human Rights and Opportunities (CHRO) by March 30.

The *Plan*:

Establishes hiring, promotional, and program goals that promote affirmative action;

Illustrates the University's efforts to achieve a workforce that is balanced and fully representational of the relevant labor market areas;

Quantitatively and qualitatively measures the University's degree of success in accomplishing hiring, promotion, and program goals; and

Examines and eliminates policies and employment practices that adversely affects members of protected classes.

Review and Approval

Within ninety days of submission, the Commission is mandated to review, evaluate and formally vote for approval or disapproval of the *Plan*.

The University's history of approvals has been based on CHRO's acceptance that the University demonstrated every *good faith effort* to meet goals, rather than goal achievement.

Good Faith Effort

Connecticut General Statutes Section 46a-68-75 (v) defines good faith effort as:

... that degree of care and diligence which a reasonable person would exercise in the performance of legal duties and obligations. At a minimum, it includes all those efforts reasonably necessary to achieve full compliance with the law.

Further, it includes additional or substituted efforts when initial endeavors will not meet statutory or regulatory requirements. Finally, it includes documentary evidence of all action undertaken to achieve compliance, especially where requirements have not or will not be achieved within the reporting period established pursuant to section 46a-68-92 of the Regulations of Connecticut State Agencies.

HIRING AND PROMOTIONAL GOALS

A hiring or promotional goal is set when underutilization has been identified for a race/gender group in a job category/title. For each job category/title, a Utilization Analysis is conducted to compare the University's workforce to the availability in the relevant labor market. Availability is determined through an analysis of statistical data from sources such as the US Census, IPEDS, NCAA, and the Department of Labor. Availability is determined for each job group by weighting the sources in accordance with its significance to that job category/title. When the percentage of a race/gender group in the University workforce is less than the availability in the labor market, hiring goals are set.

Promotional goals are set in lieu of or in addition to hiring goals, based on the historical pattern of filling specific positions.

Because of the constantly changing labor market and University workforce, goals are updated annually.

Total Goal Achievement: 35.1%

- ◆ Goal achievement increased from 30.3% in 2020 to 35.1% in 2021
- ◆ The Faculty category had the highest goal achievement of 51.3%
- ◆ The Qualified Craft category had the lowest goal achievement of 7.1%
